

Food Influences in Our Community

BLM 5.5

1. What area of the community did you explore?

2. What ethnicities were represented?

3. Why do you think these ethnicities are represented here and not others? In other words, what factors have led to these food businesses locating here?

4. Are there any food businesses you would like to return to as a customer? Why?

5. Would you characterize the area where this business is located as being ethnically diverse? Why or why not?

Food Influences in Our Community

6. Does being ethnically diverse affect the community in a positive way or a negative way? Provide three reasons to justify your answer.

- ---

- ---

- ---

7. Assume you are an entrepreneur, interested in starting a business related to food. Look at the whole community map. What food business would you open to have the best chance of profitability? In other words, what is missing in the community? Describe your proposed venture in full, using at least three terms from the textbook in your description.
